- 8.1 If a delivery period has been agreed, the period starts from the date of receipt of the order by the Supplier. Delivery or completion dates specified and / or agreed by BEEP Mobility GmbH are fixed dates and mean that the delivery item must be available to BEEP Mobility GmbH at the place of delivery and on the delivery, date specified and within the local business hours.
- 8.2 Once the Supplier believes that he cannot deliver on time, he shall notify BEEP Mobility GmbH immediately, stating the reasons and the expected duration of the delay.

Any assertion of further claims for damages remains unaffected.
- 8.4 In case of early delivery, the BEEP Mobility GmbH reserves the right to charge the Supplier for any resulting additional costs, such as storage costs, etc.

9. Payment

- 9.1 Periods for payment shall begin on the specified dates, but not before the dates on which the goods and invoices are received and the conditions for the CE

marking and declaration of conformity are met in accordance with point 4.4. If goods and invoice are not received on the same date, the payment period shall begin on a later date. If complaints are received, the period for that invoice begins only after complete and flawless processing of the complaint. In the case of initial articles, the period for that invoice begins when a positive approval notice is received.

9.2 Payment shall not be considered as an acceptance that the goods were delivered, nor as a waiver of any vested claims against defects of BEEP Mobility GmbH.

9.3 Payment shall not be considered as an acceptance of conditions and prices and has no influence on the warranty rights or other rights of BEEP Mobility GmbH resulting from the defectiveness of the service.

10. Acquisition and warranty

10.1 The confirmation on the delivery note and / or the receipt of delivery of the acceptance of goods by BEEP Mobility GmbH are only ever valid with reservations, that is goods are only considered to be accepted if there are no discrepancies in amounts and/or faults arising upon later assessment.

10.2 The warranty period for movables is 2 years and begins on the day, on which the delivery item was accepted by BEEP Mobility GmbH. A final take-over takes place only if the conditions for CE marking and declaration of conformity are met in accordance with section 4.4. If BEEP Mobility GmbH has to give their customers a warranty, BEEP Mobility GmbH may also ask the Supplier for a warranty after the end of this 2-year period within 6 months of fulfilment of any warranty claims.

10.3 The Supplier shall assume warranty for the fact that the delivered goods are delivered according to the order and comply with the quality requirements stated under point 4.1 of these GT&CP. The delivery item must correspond to a given sample and any description in all respects and shall be free of third-party rights. The delivery item and its raw materials must also correspond to the public statements made by the Supplier and any subcontractors, in particular in brochures and product descriptions (see point 2.2). Likewise, statements of all intermediaries in the production or distribution chain as well as public information of a person who refers to himself as the manufacturer by affixing his name, trademark or other reference mark. The warranty of the Supplier also covers the parts manufactured by the sub-contractors.

10.4 If the delivered item has one or more defects, BEEP Mobility GmbH can - at its free discretion- either
a) demand the elimination of the defect or the delivery of an item free from defects

(repair / replacement)

b) reduce the remuneration on a reasonable amount (price reduction) or

c) terminate the contract (conversion).

In all cases, an extrajudicial written declaration of BEEP Mobility GmbH is sufficient. The right to a reduction of price or conversion exists even if the BEEP Mobility GmbH has requested for a repair, and the Supplier, however, refuses to do so, the service is not provided within a reasonable time (maximum 14 days), an attempt at repair fails or further measures to remedy BEEP Mobility GmbH are unreasonable. A right to conversion does not apply if the cancellation of the contract would be economically inefficient in view of the particularly low significance of the defect.

10.5 All costs and risks of repair are borne by the Supplier.

10.6 BEEP Mobility GmbH shows the defects of the delivery item to the Supplier without unnecessary delay (defect complaint), but the warranty rights and all other rights of BEEP Mobility GmbH arising from the defectiveness of the delivered goods will remain unaffected by both the acceptance of the delivery item by BEEP Mobility GmbH as well as non-notification of defects.

10.7 For defects which cannot be detected within the warranty period with an economically reasonable and usual amount of effort, BEEP Mobility GmbH is entitled to submit a defect complaint even after the expiry of the warranty period, within 3 months from discovery of the defect and the Supplier undertakes to assume liability for this defect as well.

10.8 If the Supplier is given a notice of defect within the warranty period, the expiry of the warranty period is suspended as long as the rights arising from the defectiveness are invoked. If a completely new delivery item is provided, the warranty period starts anew. In case of a partial renewal, this applies to the renewed parts.

10.9 After the expiry of a reasonable period of time (maximum 14 days) to repair the defect, BEEP Mobility GmbH can repair the defect itself or have it repaired by third parties and demand compensation for the necessary expenses. BEEP Mobility GmbH shall have the same right if the subsequent performance fails or is not accepted by BEEP Mobility GmbH for reasons associated with the Supplier, if the Supplier refuses to remedy the defect seriously, if the item is not repaired till the date or within the period specified in the contract, or if special circumstances exist which justify self-remedy of defects taking into account the interests of both parties BEEP Mobility GmbH may require the Supplier to pay an advance for the expenses required to remedy the defect. The warranty provided by the Supplier for deliveries, in which the defects are remedied by BEEP Mobility GmbH or third parties within the meaning of the above paragraph, shall remain in force.

- 10.10 If, during the course of processing of the delivered goods, a defect is caused by BEEP Mobility GmbH it shall be entitled to ask for compensation of the expenses resulted in connection with the use of defective material. The Supplier shall indemnify BEEP Mobility GmbH against all warranty claims and / or claims for damages caused by the goods delivered by the Supplier.
- 10.11 For the duration of the warranty period, BEEP Mobility GmbH may withhold up to 10% of the contract value as an interest-free guarantee deposit.
- 10.12 No third-party rights are attached to the delivery item at the time of acquisition by BEEP Mobility GmbH.
- 10.13 If no agreement can be reached between the Purchaser and the Supplier within 14 days after the final acceptance (see point 10.2) on whether the delivery item meets the requirements in accordance with point 10.3, then an expert opinion shall be obtained from the competent company of TÜV Austria group at the request of a Party. The opinion of the company of the TÜV Austria Group is binding on both parties. The parties shall bear the costs of such report equally.

11. Claims for defects

- 11.1 The Supplier has to reimburse all costs, expenses and damages incurred due to the defect (in particular transport, packaging, road, labour costs and cost of materials as well as assembly, disassembly and processing costs), irrespective of whether they are caused by BEEP Mobility GmbH, the customer or a third party.
- 11.2 If defects are detected in the items / services delivered to BEEP Mobility GmbH before acceptance, BEEP Mobility GmbH reserves the right to a) return them back to the Supplier for repair, modification or replacement, b) to remedy these defects by itself under separate documentation and to invoice the Supplier for the additional expenditure incurred as a result. This applies in particular when the Supplier declares itself unable to repair the defects.
- 11.3 All costs arising in conjunction with the repair, especially transport costs, shall be borne by the Supplier.
- 11.4 BEEP Mobility GmbH has to verify the terms of the contract upon receipt only with regard to the type of product, quantity, visible transport damages and defects. If BEEP Mobility GmbH detects a defect in the course of the aforementioned inspection, BEEP Mobility GmbH shall notify the Supplier of any such defects. Complaints can be filed within 21 days from the date of the receipt of goods by BEEP Mobility GmbH or, provided that the defects were

first noticed upon handling or processing, at the time when such defects were determined. Except for the aforementioned inspection and notification duties, BEEP Mobility GmbH shall owe no additional duties of inspection and notification to the Supplier.

- 12.1 For damages caused by the defect of the delivered goods to other legal goods (consequential damages), the Supplier shall be fully liable towards BEEP Mobility GmbH.

- 12.2 With regard to the products delivered by him, which also includes parts of products, the Supplier undertakes to reimburse BEEP Mobility GmbH all expenses in connection with the fulfilment or elimination and / or defense of claims made under product liability. The Supplier shall indemnify and hold BEEP Mobility GmbH completely harmless with respect to all product liability claims made by third parties, both personal injuries and property damages. The Supplier undertakes to support BEEP Mobility GmbH in the (both extrajudicial and judicial) defense of such claims, in the best possible way

- 12.3 Should the Supplier later become aware of circumstances which may lead to product liability claims arising, he is therefore obliged to report these to BEEP Mobility GmbH immediately and to reimburse BEEP Mobility GmbH with any expense and damages which BEEP Mobility GmbH has incurred for any activities with regard to the faulty products (e.g. recall, exchange etc.) or third parties.

- 12.4 The Supplier has to maintain a liability insurance at his own expenses with a leading European insurance company, in order to cover damages caused by the delivery item or by him, his employees or agents in connection with the delivery of the delivery item. The insurance coverage must also cover claims arising from the statutory product liability. Evidence of the amount of coverage per claim shall be provided to BEEP Mobility GmbH upon request. Furthermore, the Supplier has to provide evidence of the insurance at a leading European insurance company to BEEP Mobility GmbH, which covers possible damages caused to BEEP Mobility GmbH in the event of failure to deliver or delayed delivery.

- 12.5 In all other respects, the statutory liability provisions shall apply.

He shall use all the data disclosed to him solely for the purpose of processing the order. Even the drawings, samples, patterns, models and other production documents and tools delivered to the Suppliers, which are and will remain to be the physical and intellectual property of BEEP Mobility GmbH, must be kept confidential. The Supplier shall indemnify and hold BEEP Mobility GmbH totally harmless from and against any violations of intellectual property rights of third parties.

16. TERMINATION OF CONTRACT

16.1 BEEP Mobility GmbH, notwithstanding its other rights, is entitled to terminate the contract with immediate effect if an important reason is present. 16.2 In case of a justified withdrawal, BEEP Mobility GmbH - irrespective of any other claims - can keep the delivered goods at its own discretion against payment of the pro rata consideration or return the supplied products at the Supplier's expense. If the Supplier has caused the cancellation of the contract, he shall compensate the Purchaser for all additional costs arising from and in connection with any replacement delivery by a third party (covering purchase).

17. Change of contact details

17.1 The contracting parties undertake mutually to notify a change of address, fax number or e-mail in writing.
